

# ZYCOO IP Audio Solution for Retail

1

## SH10 & SH30 Network Horn Speaker

Outdoor horn speakers provides powerful, weatherproof outdoor paging for parking lots, drive-through lanes, and storefront alerting.

2

## VI Series Network Intercoms

SIP intercoms offer secure two-way communication for stockrooms, back doors, and access control points, supporting staff coordination and security.

3

## M100 Network Microphone Console

Central management tool for store-wide paging and zone announcements with quick broadcast control when paired with the H4P IP Phone.

4

## SL30 Network Column Speaker

Outdoor column speaker offers high-clarity paging and realtime announcements for the parking area with sensor integration for a safety alarm.

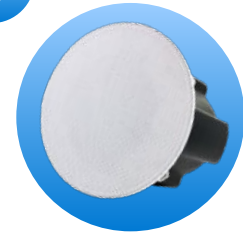

5

## SW15 Network Cabinet Speaker

SIP cabinet speaker offers wide-coverage audio for store entrances, corridors, and open retail areas, ensuring promotions and alerts stay audible.

6

## SC15 Network Ceiling Speaker

Ceiling-mounted speaker offers clear in-store announcements and background music for aisles, checkout zones, and retail floors.

7

## CooFone H4P

H4P SIP Phone enhances retail communications with HD voice and multi-line support, enabling quick staff coordination and customer assistance. (paired with M100)
