

# ZYCOO IP Audio Endpoint Devices

## Release Note

### 2025.10

#### Corresponding Version:

SW15 SC15 SH30: v2.1.3.1 (v2 hardware version) / v1.3.3.1 (v1 hardware version)

SC10: v1.1.3.1

SH10: v1.0.5.1

SL30: v1.1.2.1

SQ10(B&T): v2.1.2.1

X10: v2.1.4.1 (v2 hardware version)

#### Improvements & Bug Fixes:

1. Fixed an issue where the program could not function properly in P2P mode.
2. Optimized the MQTT callback function mechanism during manual reconnects to improve stability and prevent program exceptions.
3. Improved the English field translation for the AGC feature, making it more accurate and clear.
4. Optimized memory usage for better performance.
5. Adjusted the I/O port used for SQ10-T AI channel switching.
6. Updated the SQ10-T AI channel hardware version to V3.2.
